

brownall Labtap®

Chemical Waste

A full range of accessories are available for our bottle traps and drip cup fittings. Our bottle traps are designed to be adaptable for use on either Metric or Imperial pipe size and incorporate an adjustable height by the use of a sliding tube at the neck of the fitting. Compared with competitor's products this feature gives installers greater flexibility on installation and can also reduce the time and cost of installation considerably.

For the latest updates on all of the Broen range of laboratory products and or chemical resistance chart, visit our web site at www.broen.co.uk
